

## **Rules and Regulations for CS2810( Advanced Programming Lab) Assignments**

1. These are group assignments.
2. Each group consists of 2 members and students are free to choose their lab partners.
3. In order to improve the relationship among students, formation of group should satisfy the following conditions.
  - No two girls can form a group.
  - The members should not be from the same state.
4. Each assignment will carry 10 marks.
5. If one group cannot complete the assignment within the stipulated time, 50% of the marks will be cut off.
6. If the assignment completes within the stipulated time, but does not optimally solve the problem at hand 25% of the marks will be deducted.
7. All the students should register in cse moodle account.
